

## Grade 4 Example Journal

### “My New Class”

Today was the first day of school and I was so excited. My new homeroom teacher is Mr. Waterman. He is kind and my sister said that he is an incredibly good language arts and math teacher. I am really looking forward to studying English this year. It is my favorite subject to study. I think I will have a lot of homework this year in Korean, Japanese, and English.

There are 40 students in my class. Many of my friends from Grade 3 are here and that makes me happy. I do not know all the students, but I think we are all going to become great friends. Some of the students are new to the school, so we must make them feel welcome. I hope I make many wonderful memories with my classmates this year.

I have so many books this year. Each subject has a textbook and a workbook. My desk is going to be full of so many books! I think it is going to be OK because I like to study very much. My mom and dad will be proud of me if I get good grades this year. I think this is going to be the best year at Tokyo Korean School yet!
